Nice Words

In the two years I worked with him, Martin (“Moxie,” as he’s known in this office) showed not just industriousness, innovation, and a healthy respect for deadlines, but his ideas and leadership proved invaluable in the development of a new initiative.

He possesses the essentials — he meets deadlines, takes edits with eagerness and grace, and learns quickly — and so much more. Moxie constantly pushes himself to learn new technology and to improve his use of the software he already knows. He’s a true one-man show.

-Ruth Jacobs, Director, InsideColby
